We (C/A, WH) saw & moved as so "risky"
(despite SU intentions that C/A/WH know,
(that Rumsfeld didn't - though th wildly
forecast the reality)
(as did Aug-King for Rep.!)

giving 1) th couldn't believe, too unrealistic,
that th could monitor every intel
operation

But th did, till Oct 14
and could have longer, with SAMs

th
and advised off. cap. with too much
safety, even enough to deter reversion

~~could have~~

Some officials were ready to accept!

(Why didn't VFR attack on Oct 16-17?

(Small chance of 1-2 MRBMs!

and fear of what:

(Why didn't C/A foresee this: US & th calculations?

Thought th would see missiles
long before operation?

But McCon did not - SAMs!

(on this, he pressed every.)

VFR for more "laxly" detected (from GW! ^{W. J. J. J.} then VCS!
